## **Vegetation and Nature Conservation**

***To the memory of Professor Jean-Marie Géhu (1930-2014)***

**4 -7 october 2016**

**Palais des congrès of Saint-Brieuc (Côtes-d'Armor, France)**

***First circular, February 2016***

The 7<sup>th</sup> Symposium of the French Society of Phytosociology, co-organized by the French Ministry of Environment, Sustainable Development and Energy, the Laboratory of Géoarchitecture (University of Western Brittany), the departemental Council of Côtes-d'Armor and ViVarmor Nature aims to present the different applications of Phytosociology to Nature Conservation and Management.

It is addressed to the whole set of actors handed on the expertise of land management : scientists, managers, technicians, policy officers of different organisations (national botanical conservancies, local authorities, protected areas, engineering offices...).

This symposium is dedicated to the memory of Professor Jean-Marie Géhu (1930-2014).
